

Japanese v2.0.0 (Discotek v1)

The **Japanese Discotek v1 masters (v2.0.0)** are an amalgamation of many other masters.

They were used for the first print of the Japanese Blu-rays release (01-78).

A [second print \(v2.0.1\)](#) was later released to fix some errors. Only disc 1 (01-39) was modified.

The subtitles of that second print were used for the 2024 YouTube uploads (01-10).

Trivia

Known issues

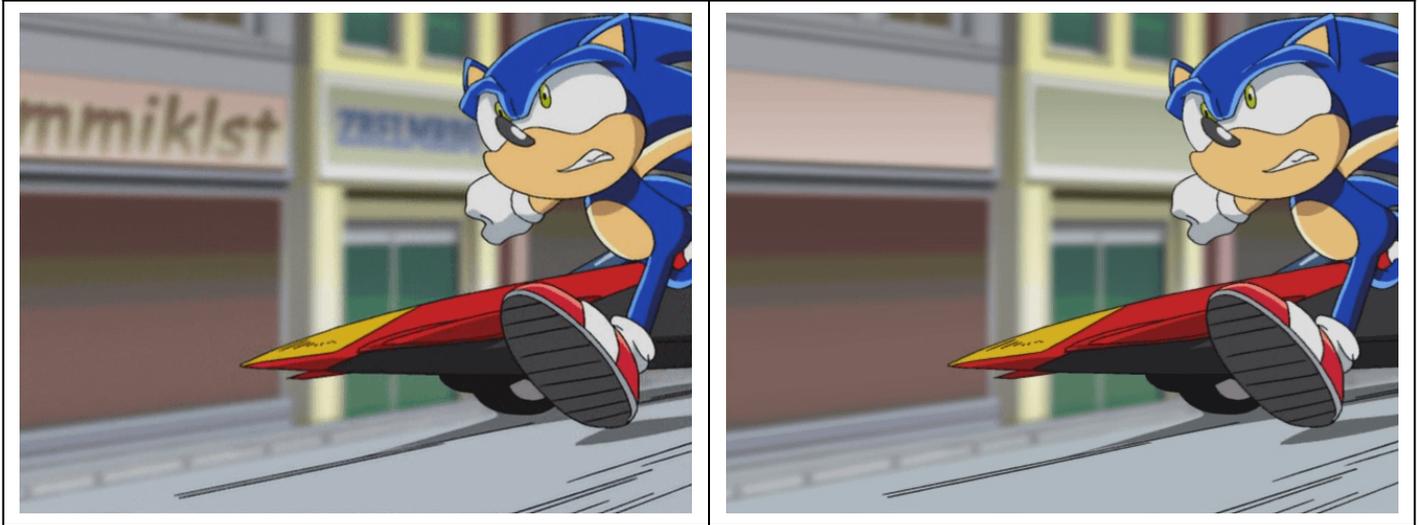

Because Discotek Media were not careful enough while editing with the 4Kids masters—or because they did not think that the edits were that big a deal—, some 4Kids edits have crept in the final product. The error in episode 35 is unexplainable, though.

Errors in episodes 14 and 35 were eventually fixed in the [second print \(v2.0.1\)](#), so they are not included on this page.

Episode 24

An edited scene from the 4Kids masters can be seen at 06:43.
