

# Episode

There are 78 episodes in Sonic X.

The conventional length of an episode is 24:35, or 24:05 for episodes 52 and 78.

## Seasons

Season 1 spans from episodes 1 to 52 and season 2 spans from episodes 53 to 78.

The English dub made by 4Kids Entertainment splits the series into three seasons of 26 episodes.

## Arcs

The separation of the series into arcs is not an exact science.

The usual split is something like this:

- Episodes 1 to 13 are the *New World* arc.
- Episodes 14 to 26 are the *Chaos Emeralds* arc.
- Episodes 27 to 32 are the *Chaos* arc.
- Episodes 33 to 38 are the *Shadow* arc.
- Episode 39 is on its own as a recap episode.
- Episodes 40 and 41 are the *Egg Moon* arc.
- Episodes 42 to 46 are the *Emerl* arc.
- Episodes 47 and 48 are the *Murasia* arc.
- Episodes 49 to 52 are the *Homebound* arc.
- Episodes 53 to 78 are the *Metarex* arc.

## Part A and part B

Part A of an episode ends after the first [eyecatch card](#). Part B starts at the second one.

For [episode 52](#), which does not have eyecatch cards, the split between part A and part B is made at 18:42.
